### The Challenge

DARE TO BE DIFFERENT! Team up with your friends and bring people together to help them understand why everyone should be 'proud to be different'.

### Ideas - you could

- Organise an event to get everyone together and celebrate who they are.
- Create a play, musical or dance to perform to members of community/minority groups to promote different cultures within our society.
- Help a group of people with special needs/disabilities.
- Organise a cooking event to sample different foods – just how good do they taste?
- How can your team raise awareness and stop bullying?
- Produce your own poster/cartoon or story around issues that affect people close to you.
- Design a community calendar of faith events.
- Respect everyone around you, how can you help victims of hate crime? (Crimes motivated by hate based on race, religion and belief, gender, sexuality, age, disability or immigration status.)

### Things to think about

Look around, who makes up your community? You and your family, friends, people of different ages, religions, beliefs and disabilities. How can you use the Respect Challenge to bring everyone together?

What else makes people different?
