

LEGACY CHALLENGE

The Challenge

At Arco, 'respect for people' is one of our core values and at the heart of everything we do. Over the years we have been astounded by the amazing work Lifestylers do within their local communities and the respect shown to others.

In 2015 we are challenging Lifestyle teams to decide upon a project that can withstand the test of time, creating a legacy within your local community.

Ideas - you could:

- The choice is yours, have a look around your local area and see what a difference you and your team can make.

You may decide to...

- Improve a neglected area which will benefit others.
- Revamp a play park.
- Create a community garden.
- Campaign for a local need, for example a Zebra Crossing or much needed sporting/community facility.
- Create a mural.
- Bring your community together to raise funds to buy a much needed item to benefit others.

These are just a few of our ideas, the possibilities are endless!

What legacy will you and your team decide upon?

Things to think about...

Be safe at all times.

Take lots of photos to include in your log book!

Tweet us about your project
